

Launched by the Erasmus Student Network, the Social Inclusion and Engagement in Mobility Surveys aim to analyse how diverse the participation in the Erasmus+ programme is, to see whether students from disadvantaged backgrounds take part in mobilities and to determine whether their experience is different than the one from their more advantaged peers.

Student Survey Inclusive Mobility

- This survey aims to explore the challenges students experience before, during or after their mobility with regards to finances, support structures, integration on campus and discrimination.
- What motivated them to go on exchange, and what hindered them from going on exchange and also the impact their exchange had on their personality and career prospects.
- Students are invited to participate and get the chance to win an [Interrail Global Pass](#) or an [Ultimate Ears Wonderboom 2](#).

The survey focuses on seven specific areas:

- Education Background
- Mobility Experience
- Mobility Support

- Barriers to Mobility
- Enablers of Mobility
- Graduate Experience
- Personal Characteristics

University Staff Survey Inclusive Mobility

This survey aims to explore how mobility programmes are organised across Europe, to explore how students are supported to access mobility programmes and to map different stakeholders involved in supporting mobility experience for students.
